Lake Nakuru National Park

Day 1

Known all over the world for its flamingos, it's alkaline and is recognized as being one of the natural wonders of the world.

Afternoon game drive in Lake Nakuru

Early in the morning, you'll be picked up from the airport or from your hotel then drive to Lake Nakuru National Park. It is across the equator, southwards of Bogoria and lies on the Rift Valley's most famous Lake Nakuru. Known all over the world for its flamingoes, it's alkaline and is recognized as being one of the Natural Wonders of the World. Lake Nakuru is now a rhino sanctuary, harboring a population of over 40 black and over 60 white rhinos. However, the flamingos, of course, have always been the main attraction. At times there may be almost 2 million flamingos in the residence, forming a stunningly beautiful deep pink band around the edge of the lakeshore. You will arrive in time for lunch then have an afternoon game drive.

Alternative: If you wish, instead of Lake Nakuru, you can enjoy a game drive in Lake Naivasha instead.

Day 2

We'll have an early morning drive to Maasai Mara National Reserve.

It holds on as one of the few places left on earth where wildlife still lives comparatively undisturbed, in the numbers that once roamed the plains and forests of Africa. As the northern tip of the vast Serengeti ecosystem, the Mara hosts the spectacular seasonal migration of many thousands of wildebeest, zebras and attendant predators. You'll arrive in time for lunch then have an afternoon game drive.

The reserve is well known for its black-manned lion, as well as its abundant resident wildlife and its one of the few places where it's possible to see the big five during a morning's game drive. Many of the cheetahs are so tame they seek shelter from the hot sun under one's vehicle and several even climb onto the roof to get better view of prospective prey.

For the bird enthusiast, almost 500 species have been recorded: among these 16 species of eagle, plus many hawks and falcons, 6 species of vultures, 8 species of storks, 4 of bustard (including the Kori bustard, the world's heaviest flying bird), and 9 species of sun birds.
